Express, Python

EDUCATION

Lambda School

Oct. 2020 to May 2021

Endorsed for completion of the Lambda School full-time, intensive, mastery based Software Development and Computer Science bootcamp.

Gained 950 hours of coding experience building real-world projects.

Scored perfectly on the graduation interview.

PROJECTS

Family Promise Service Tracker - Back End Developer May 2021

A service tracking web app for Family Promise to monitor and evaluate their work to help homeless and low-income families achieve sustainable independence.

HTML/CSS | JavaScript | React | Redux | Node | Express | PostgreSQL

- Collaborated remotely with a team of 9 developers to implement our project roadmap in 4 weeks
- Solely responsible for building endpoints and data tables necessary to track service recipients by household
- Utilized PostgreSQL to manage the local database and Heroku to manage and deploy the production database

Keeping Up With The Dozers

Jan. 2019

A game created during the 2019 Global Game Jam in which you collect nouns to build your home! Race your friends in this local multiplayer game to build a mansion.

C# | Unity

- Collaborated in person with a team of 4 developers to create a video game based on a given theme within 48 hours
- Solely responsible for building player movement in Unity and C#
